PROFESSIONAL SUMMARY

React / Next.js developer with 3+ years of experience building scalable SaaS and marketplace platforms. Strong in performance optimization, state management architecture, reusable component systems, and SSR/CSR rendering strategies. Experienced in delivering production-grade applications with clean code practices, testing coverage, and CI/CD workflows.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js (SSR, SSG, API Routes), TypeScript, JavaScript (ES6+), Redux Toolkit, TanStack Query, HTML5, CSS3, LESS, Bootstrap, Material UI
- **Backend & APIs:** Node.js, Express.js, REST APIs, MongoDB, Socket.IO
- **Performance & Architecture:** Code Splitting, Lazy Loading, Memoization, Custom Hooks, State Normalization, SEO Optimization, Core Web Vitals
- **Testing & DevOps:** Jest, React Testing Library, Git, GitHub Actions (CI/CD), Docker

PROFESSIONAL EXPERIENCE

Software Developer — Apps Team Technologies Pvt. Ltd, Trivandrum, Kerala *Oct 2023 – Dec 2025*

- Built and maintained scalable React/Next.js applications for internal tools and client-facing platforms.
- Integrated 15+ RESTful APIs using TanStack Query with caching and background revalidation to optimize network efficiency.
- Designed normalized Redux Toolkit store architecture to manage complex multi-role workflows.
- Wrote unit and integration tests using Jest and React Testing Library to improve application reliability.

Software Developer — Aligntax Consultancy Services, Trivandrum, Kerala *Mar 2022 – Jun 2023*

- Developed and maintained web applications for client-facing platforms and internal tools.
- Built an e-commerce marketplace platform supporting 500+ products with optimized listing and filtering workflows.
- Optimized mobile-first user experience for product browsing and QR-based identification workflows.

PROJECTS

Whizpot – Project Management SaaS Platform *Apps Team Technologies Pvt. Ltd*

- Built a multi-role project management platform with task tracking, issue management, and test case workflows.
- Applied drag-and-drop task boards using React DnD to support dynamic workflow transitions.
- Designed role-based access control (Admin, Manager, Developer) with secure authentication flows.
- Expanded PDF and Excel reporting modules for project insights and analytics.
- Integrated automated email notifications for assignments, due dates, mentions, and milestone updates.

Belocated – E-commerce Marketplace (500+ Products) *Aligntax Consultancy Services*

- Improved a marketplace platform supporting 500+ products with optimized product listing and filtering workflows.
- Built persistent shopping cart functionality using Redux Toolkit with cross-session state persistence.
- Executed user account management including order history, wishlist, and profile management.
- Engineered a QR-based pet identification system enabling instant owner contact for lost pets.
- Optimized mobile-first user experience for scanning and product browsing workflows.

EDUCATION

Rajadhani Institute of Engineering and Technology — B.Tech in Computer Science

2018 – 2022
